We are a Premium Almond Farmer from Europe

Veracruz is an almond producer, processor and distributor, focused on delivering top quality Mediterranean varieties. We currently have an area of 1,300 hectares, divided between 5 properties in the municipalities of Fundão and Idanha-a-Nova, in **Portugal**, in which we invest and where we use the most modern practices in precision farming, aiming to make efficient use of resources and avoiding waste. Now, we have our own brand - **Vera Almond** - to offer what we do best: premium almonds direct from the farmer.

Because our Mediterranean Location makes all the difference

Our entire operation is in Europe, which makes delivery more precise and maintains the quality and the freshness of the product.

Portugal is strategically positioned, as it is close to the main European almond markets. In addition, it has a Mediterranean climate, which is one of the key factors for growing almonds. All our almonds have hard shells, which ensures the fruit has the best attributes and a different flavour and crunchiness.

Commitment to Quality

Certifications that guarantee safe and sustainable food production.

Veracruz can supply certified almonds to clients of any size, whether small local businesses or international retail chains, with full social and environmental commitment.

We secure an integrated guaranteed production system that covers all farming practices, from planting to harvesting, through GLOBAL GAP (**GGN: 4063061907080**) and **INTEGRATED PRODUCTION** certifications, in line with the European guidelines on the "Farm to Fork Strategy".
